Nice addition with one major issue if you like to operate trains at night: One side of the interior cab view has misaligned instrument dial lights - so that the dial lights appear to be floating off into space. If DTG fixes the instrument dial light issue, I'll edit this review to a thumbs up.. Nice addition tp base model. These blues have a good grubbiness while maintaining a nice metallic reflection underneath. Recommended.. Nice addition tp base model. Certainly ideal for scenario makers that like or focus on the BR era and the loco's do look weathered which is a nice touch..
